

INTERTAPE® CARTON SEALING TAPE

Need a more Aggressive Adhesive? Try . . .

Natural Rubber Adhesive Carton Sealing Tape

Intertape Brand® Natural Rubber Adhesive Carton-Sealing Tapes are the problem-solver. Natural rubber tapes are unique among adhesive-backed tapes because of their aggressive adhesion properties. They are ideal for cartons with recycled paper content, heavy ink coverage, rough or ultra-smooth surfaces and other problem cartons. Natural rubber carton-sealing tapes have fast positive bonding and high shear adhesion. They are moisture-resistant and are also ideal for temperature extremes (hot or cold). Exhibiting firm unwind qualities, these tapes are excellent for manual dispensers and carton-sealing machine applications.

- **Strong adherence** to “problem” cartons. Natural rubber’s broad adhesive profile offers a great deal of flexibility and is ideal for cartons with recycled paper content, heavy ink coverage and rough or ultra-smooth surfaces.
- **Fast, positive bonding** which reduces application time. Cartons never need to be resealed.
- **Cold temperature application**, even at freezing temperatures. Once applied, it will withstand sub-zero conditions of cold storage warehouses and winter shipments.
- **Moisture resistance.** Tapes will tolerate humid and damp packaging conditions.
- **High shear adhesion** for added security when sealing over-filled cartons due to its strong bonding properties.
- **Firm unwind.** Tapes are excellent for manual dispensers and carton sealing machine applications.

Need a Tape that works in extreme temperatures? Try . . .

Acrylic Adhesive Carton Sealing Tape

Many Sizes Available

Intertape Brand® Acrylic Carton-Sealing Tapes are best suited for applications in temperatures less than 40°F and greater than 120°F. Providing excellent clarity, acrylic tapes age well over extended periods in sunlight and fluorescent lighting. Intertape Brand® Acrylic Carton-Sealing Tape acrylic adhesive features improved quick-stick performance, higher shear strength, reduced haze and improved clarity.
