

# AKRO-MILS CANADA CONTAINERS

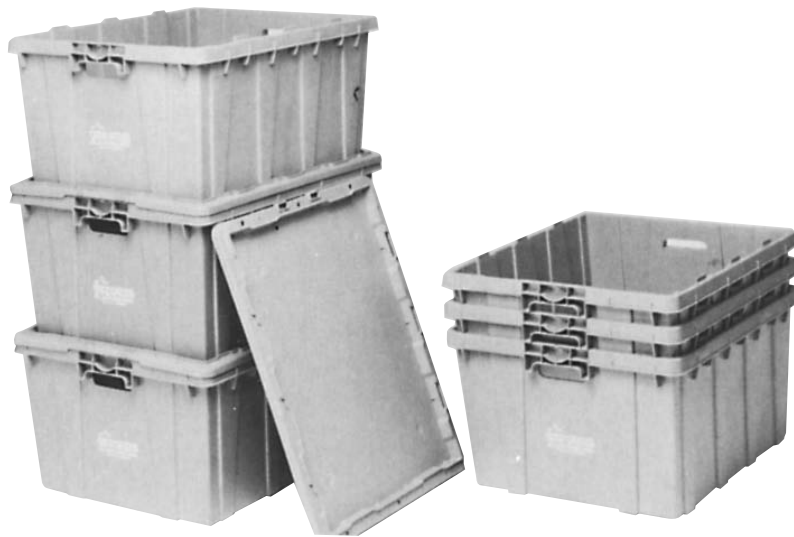

## Attached Lid Containers

Buckhorn reusable plastic containers expand your line of shipping, handling and storage of products. They are the perfect container for any application that calls for packing, storage and transporting, especially in closed loop systems. The containers are lightweight, with ergonomic handles that make lifting loaded containers easier on the hands. Containers last and last, through hundreds of trips.

## Containers with Separate Lids

Buckhorn detached lid distribution containers have been in use for over 20 years. A durable design and large selection of sizes has made Buckhorn a cost effective system for picking, returnable distribution, and work in process containers, anywhere general merchandise is moved.

The 21" x 15" and 24" x 20" sized totes provide for ease of handling, and maximized pallet and trailer cube. A variety of depths assures complete use of container and trailer capacities.

Nestable when empty, stackable when used with lid.
