

## GRAVITY CONVEYORS

### Curved sections

90° curved conveyors with a 36" inside radius. Standard model is the straight roller curve. Also available is the split roller curve. It gives the load a more efficient turn flow. To prevent the load from falling, the optional steel guard rail is required.

\*Split curve with guard rails

Straight Roller Curve

Split Roller

Curves, BFR	Roller Size	Roller Type	Frame	Weight, 45°	Model #, 45°	Model #, 90°	Weight, 90°
