

# READY-TO-ROLL BUBBLE PACKAGING

## Polycap® R Recycled Bubble Packaging Material

(Min 30% recycled content with 15% post-consumer)

Polycap® recycled bubble cushioning material, in handy Ready-To-Roll dispenser cartons, is an ideal way to reduce your costs and, at the same time, improve service to your customers.

- Clean, attractive, transparent air cellular packaging material enhances your company's image and promotes customer good will.
- Superior cushioning characteristics of Polycap® R barrier bubble technology eliminate product damage in shipping.
- Lighter weight packages reduce postal and shipping costs.
- Fast, convenient self-dispensing cartons and easy-tear perforated packaging material reduce labour costs.

# POLYCAP® BUBBLEBAGS® POUCHES

- **Save labour:** Simply insert product and close with self-seal tape.
- **Provide better protection:** Polycap® R bubbles, with an air retention barrier, keep their cushioning power longer than non-barrier bubbles, allowing reusability.
- **Save material:** Bubblebags® Pouches are available in a wide range of sizes to form-fit almost any product. No over-packing, no over-use.
- **Improve quality control:** Transparent bubble material allows easy product identification without removing packaging.
- **Offer static protection:** Anti-static material is available for ESD-sensitive applications.
- **Are environmentally friendly:** Polycap® bubbles are made with a minimum of 30% recycled plastic and a minimum 15% post-consumer content, reducing solid waste.
- **Polycap® R Bubblebags Pouches PC-220 (3/16" thick). Standard sizes.**
