

# SAFETY & CORROSIVE CABINETS

## SAFETY CABINETS

**STORE FLAMMABLES SAFELY.** Choose from one of our two styles. 2" double wall fiber insulated or our 1 1/2" double wall air insulated. Both constructed from rugged 18 gauge rolled steel. Doors swing open on sturdy piano hinges to provide maximum access to contents. Three point latch with key lock keeps cabinets secure from unauthorized entry. Cabinets available in 30 and 45 gallon capacities with adjustable shelves, 2" vents, ground cable connection, adjustable feet.

### 2" FIBER INSULATED \*U.L.C. Approved

Model No.	Cap. Gal.	Dimensions H x W x D			No. of Shelves	Wt. Lbs
HW30*	30	45	44	19	1	350
HW45*	45	66	44	19	2	430
HW60	60	63	35	35	2	500

### 1 1/2" AIR INSULATED \*FM Approved

Model No.	Cap. Gal.	Dimensions H x W x D			No. of Shelves	Wt. Lbs
30FM*	30	45	44	19	1	233
45FM*	45	66	44	19	2	314
60FM	60	63	35	35	2	373

## DRUM SAFETY CABINETS

**Vertical:** Keep 45 gallon drums close to work areas to safely contain and dispense flammable liquids. Cabinet includes drum supports.

**Horizontal:** Store one 45 gallon drum and drum cradle (sold separately) for easy dispensing of flammable liquids. Simply roll drum back out for easy access when finished, roll drum back in to protect contents. Grounding cables are recommended when transferring liquids. Both drum cabinets are constructed to the same quality specifications as the Safety Cabinets.

### 2" FIBER INSULATED

Model No.	Cap. Gal.	Dimensions H x W x D			No. of Shelves	Wt. Lbs
HW45V	45	63	35	35	-	470
HW45H	45	50	35	50	-	500

### 1 1/2" AIR INSULATED

Model No.	Cap. Gal.	Dimensions H x W x D			No. of Shelves	Wt. Lbs
45HFM	45	50	35	50	-	384
45VFM	45	63	35	35	-	420

For maximum safety it is recommended to store volatile liquids in approved safety cans before placing them in safety cabinets

## CORROSIVE CABINETS

Built by the same standards as the 1 1/2" walled Safety Cabinet with the exception that the shelves and bottom are equipped with corrosive resistant polyethylene trays to contain any accidental spills. Cabinets are finished in corrosive-resistant blue enamel epoxy.

Model No.	Cap. Gal.	Dimensions H x W x D			No. of Shelves	No. of Trays	Wt. Lbs
C124	24	36	35	22	1	2	204
C130	30	44	43	18	1	2	233
C145	45	65	43	18	2	3	313
