

rousseau MODULAR DRAWER SYSTEMS

The rousseau Modular Drawer

With a new design and improved performance, the Rousseau Modular Drawer is the best in its category. It permits faster inventory and ensures greater efficiency. In fact, it is the base of a storage system which offers top performance with a minimum investment.

The full-length handle is designed to provide a good solid grip, even when you open a drawer carrying 400 pounds. Installed at the top of the drawer, it is easier to reach, especially with bottom drawers. The full length handle serves to clearly identify contents since it matches the inside width of the drawer exactly. An optional non-reflective plastic cover ensures better visibility and protects the label.

Choose the colour of the handle end caps to suit your working environment and enhance your drawers and cabinets. Whether your work space is dark or bright, you can choose from colour combinations appropriate for industrial, commercial or institutional work places.

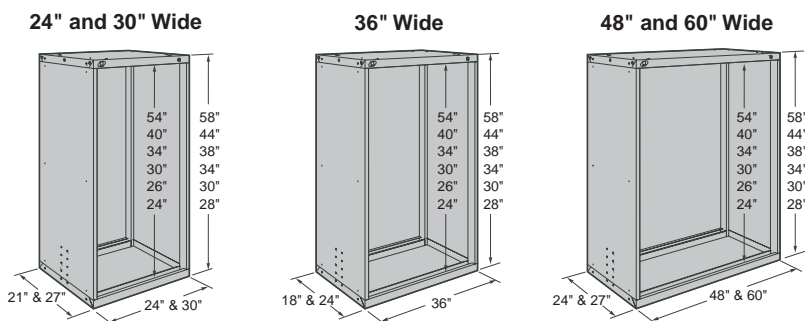

A wide selection of drawer depths and partitioning configuration allows users to design their units to accommodate a variety of inventory.

This feature increases efficiency in inventory management and keeps items in a clean, organized environment. Optional on all units is a locking system.

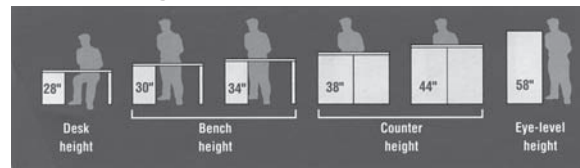

rousseau MODULAR DRAWER SYSTEMS

STORAGE VERSATILITY AT ITS BEST

Unite conventional and high density storage by incorporating modular drawers into the Spider shelving system. Combining Rousseau's Spider shelving and modular drawers results in an extremely flexible and highly versatile storage system.

Advantages of the Rousseau Drawer

- 100% access to content
- 400-pound load capacity
- Quiet, precise rolling
- Neat, modern design
- Ergonomics, cleanliness and safety
- Major space saver
- Progressive and modular system

Storage Systems with Drawers

Advantages, such as savings in space, time and efficiency, of a storage system become apparent through utilization. Criteria of a quality system are as follows:

- maximum use of available space.
- means to store items of various weight and size in an orderly, neat and safe fashion.
- easy to locate and access contents for use, filing and inventorying.
- reliable, quality construction.

The rousseau modular drawer system meets all these requirements. In addition, it can be adapted to specific needs simply by moving or adding drawers or drawer sections or by changing the partitioning.

Bulky items

Conventional storage

High density storage

Bulky and heavy items

rousseau leads the North-American market in shelving units combined to modular drawers. With this hybrid system, small items can be stored in drawers while shelves are used for larger items. In addition, existing shelving units can be kept and their value increased by integrating them into a more versatile storage system. Also, your storage system can be adapted as your company expands simply by moving or adding drawers as needed.

Some of the posts compatible with our system :

rousseau MODULAR DRAWER SYSTEMS

Presented here are some of the most popular modular drawer in shelving models.

Rousseau modular drawers are adaptable to more than 35 brands of shelving available on the market.
