

rousseau NC TOOL STORAGE SYSTEM

We have designed a storage system to suit your needs.

Thanks to the various applications proposed, tools are protected during handling, storage and transportation of the tool rack.

VERSATILITY

The tool rack, at the core of our storage system, is compatible with the entire Rousseau product line. The compact and sturdy tool rack is equipped with practical, ergonomic handles making it easy to carry.

PATENT PENDING

FLEXIBILITY

The tool rack comes with perforations to insert Taper, Straight, Sandvik Capto, HSK, KM and VDI tools. The extruded PVC component is also offered without perforations.

SAFETY

With its original two-level design, the rack offers improved support and increased stability by preventing tools from falling out, even when the rack in an inclined position.

ACCESSIBILITY AND ERGONOMICS

Access to tools is made easy by integrating the tool rack with modular drawers, providing a 100% opening. Handling is also made easier in the Spider shelving and on the multi-purpose stand by the 20° inclination of the adaptors.

rousseau MODULAR WORKBENCHES

Open Type

Open Work Benches are of rugged steel construction for heavy duty use. All models feature heavy gauge channel formed steel legs with wide foot plate for stability, and for easy lagging to floor. Stringers provide greater bench rigidity and become a convenient back stop on models with shelves. Versatile modular design allows easy addition of accessories at any time.

Pedestal

Pedestal Work Benches feature rugged steel construction and allow easy addition of a full range of accessories. These benches are ideal wherever storage of tools or workpieces is required. Work Bench assemblies are available with many styles of pedestals. All are made from heavy gauge steel.

The inverted-hat design of the upper part of the leg provides excellent structural rigidity.

Ball-bearing sliders, with a 100lb capacity, allow drawers to open 100%, giving unrestricted access to their contents. Each drawer is equipped with dividing strips for flexibility.

Suspended Pedestal
