## MACHINING TOOL STORAGE SYSTEM

Rousseau's machining tool storage system has been designed to provide maximum protection for your tools while offering optimal storage.

With its original two-level design, the tool rack offers improved support and excellent stability by preventing tools from falling out, even in an inclined position. The tool rack surface is made of sturdy PVC and protects tools against blows, corrosion and spattering molten metal, while allowing for coolant drainage and limiting contact surfaces with the tool.

The tool rack has perforations for Taper, Straight, Sandvik Capto, HSK, KM and VDI tools. The tool rack is also available without perforations.

End-Users: 1.866.463.4270 Distributors: 1.800.463.4271

### **MACHINING TOOL RACKS**

The tool rack seamlessly integrates into all Rousseau product lines. Its distinctive advantage lies in the rack's resistant PVC extruded design. It can withstand blows and corrosion while allowing fluids to drain away, which prolongs the life of your tools. In addition, the racks feature a tool labeling area for quick and easy identification.

With Rousseau tool racks, you reduce your purchase and refurbishing costs.

### **SHELVING**

Compatible with the following Spider® Shelving: 30"W × 24"D, 36"W × 18"D and 36"W × 24"D with NC51 adapters

### WM UPRIGHTS

Installs in 28"W and 34"W WM11, WMA and WM35 frames with NC50 adapters  $\,$ 

#### **R CABINET**

Compatible with the following RF31/RF32/RF33/RF34/RF35/RF36 modular drawers:  $30"W\times21"D$ ,  $36"W\times18"D$ ,  $30"W\times24"D$ ,  $36"W\times24"D$ ,  $30"W\times27"D$  with NC54 adapters

#### TEKZONE HUTCH AND MULTITEK CART

Attaches to TekZone Hutch rear utility panels at the desired height

The 23" wide version can be installed on the MultiTek cart by using the RV11 uprights

### MINI-RACKING

PVC decks for Mini-Racking for 48"W, 60"W and 72"W Mini-Racking levels available: NC33 and NC34

### **R2V CABINET**

Installs in 24"D and 27"D RL31 drawers. Two wide racks can be placed in 11"W drawers and wider

### VTZ CABINET

Installs in 44"D NC60 drawers

#### IMPORTANT

Refer to technical guide N50 for recommended layouts based on tool height and intended use.

NOTE: All

All our racks are available in a perforated and blank version. The number of tools that a tool rack can hold varies according to tool diameter and the length of extruded surfaces. The number of holes specified in the table indicates the number of perforations per extruded surface.

### IMPORTANT

Refer to technical guide N50 for recommended layouts based on tool height and intended use.

8

info@rousseau.com

Rousseau mobile freestanding stations are designed to optimize your task changes. They make it easy for you to move to a different location while properly protecting your tools.

The mobile stations have ultra-quiet and smooth-rolling polyurethane casters that glide easily even on floors scattered with metal fragments or on greasy surfaces.

The rack's PVC surface protects tools against impacts, corrosion and spattering molten metal. The racks are also tilted 20° for easy handling and access to tools.

- Easy and safe transportation of tools

### STATIONARY STORAGE FOR TOOLS

Whether you want to store specialized metalworking equipment (e.g., drill bits, collets, punches, tool holders) or standard tools (e.g., pliers, files, wrenches, sockets), Rousseau offers a wide range of solutions: freestanding stations, modular cabinets, shelving with drawers, R2V cabinet, VTZ cabinet, Mini-Racking, and much more. All these options allow you to find the solution that best meets your specific requirements.

Our range of stationary storage provides effective protection against the kind of corrosion and premature wear that results from unsuitable storage.

Your tools are precious; let Rousseau help you protect them!

- 3 drawers
  - 1 drawer with groove trays, 3"H
  - 1 drawer with tool foam, 4"H
  - 1 drawer with compartments, 4"H
- Provides full and unrestricted access to the drawer contents

Shelving with drawers must be anchored to the floor.

### SHELVING WITH ADAPTERS

• Choose a model with doors to prevent dust from settling on your tools.

### **R2V CABINET FOR NC TOOLS**

With an R2V storage cabinet you can use the vertical space you have available, which frees up more floor space.

The trays can be adjusted vertically and horizontally in 1" increments c/c to accommodate the height of your tools, and they can support a load of 100lb. Each drawer opens fully and has a 200lb. load capacity.

### **VTZ VERTICAL STORAGE FOR TOOLS**

The VTZ (Vertical Tool Zone) can be used to store lots of tools in a relatively small floor area. Each of the drawers features a floor rolling system that supports a 1,000lb. load. The NC trays can be adjusted vertically in  $\frac{3}{4}$ " increments c/c to accommodate the height of your tools.

For additional tool trays, see page 8.

Designed so it can be moved with a pallet truck or forklift. The cabinet must be moved without any load in the drawers.

### MINI-RACKING FOR TOOLS

With a wide range of dimensions and options available, industrial-quality Rousseau Mini-Racking units offer an efficient way to store bulky items in a scalable system that easily adapts to specific needs. Easy to assemble and built to last, the Spider® Mini-Racking System is ideal for high-density storage of your tools. For example, the option shown here provides quick access to your tools from both the front and rear.

Quick to assemble and built for heavy-duty industrial use, the Spider® Shelving System meets all your storage needs. With multiple depth and height combinations to choose from, combined with a wide range of accessories, you can build a layout that will meet both your current and future needs. Assembly is easy: The shelves attach to the posts with four compression clips, so changing the layout is a quick and simple process.

There are many possible configurations. Contact Customer Service for a customized solution.

### **OPEN SHELVING**

### **CLOSED SHELVING**

### **SHELVING WITH DRAWERS**

By choosing shelving with drawers, you can store both small and bulky items in the same unit, which means you are maximizing use of your available floor space.

### STORAGE CABINETS, STATIONARY AND MOBILE

Rousseau's modular cabinets boast a heavy-duty and distinct design that is ideal for all environments. They are market-leading products thanks to the wide range of dimensions and accessories available, their modular design and, above all, their durability. The drawers have a load capacity of 400lb. each and can be opened to full extension. Each drawer comes subdivided.

### **HIGH-DENSITY STORAGE CABINET**

• Designed for intensive use, the R Cabinet is perfect for storing tools and parts of all sizes.

### **MULTI-DRAWER MOBILE CABINET**

 Superior-quality casters for easier maneuverability

### **WORKSTATION SYSTEM**

We have the perfect customized solution whether you are looking for basic stationary or mobile workstations with or without storage space, or a more comprehensive workstation with multiple accessories.

You will love the versatility of our workstations and their ability to evolve along with your business needs by simply adding accessories, such as LED lights, riser shelves, power feed panels, 5S panels and

various holders. With multiple dimension combinations to choose from, you can create a completely customized space that meets the highest standards for ergonomics, safety and security.

And with tool racks installed on WM uprights, you will always have your numerical control tools within easy reach.

### MAINTENANCE WORKSTATION WITH TOOL RACKS

 Ideal for sharpening, calibration and swapping out tools

Over the years, Rousseau has developed many different storage solutions to meet the standards of the 5S methodology. The aim of this Japanese technique is to continuously improve the work environment. It is designed to achieve better organization and an efficient work environment by ensuring each tool is in the right place, easy to find and well identified.

Furthermore, the storage solutions we offer help you to improve work conditions and morale for employees by reducing the time and energy they spend on unproductive tasks.

### WALL-MOUNTED PANEL SYSTEM

Rousseau's 5S multi-purpose panel system can be used to store a broad range of items of different sizes, shapes and weights on a single surface.
